EDUCATION

Fordham University, Graduate School of Arts and Sciences
Masters in Computer Science

Aug 2023 - May 2025
New York, USA

Siksha O Anusandhan University
Bachelors in Computer Science

Aug 2019 - Jul 2023
Odisha, India

WORK EXPERIENCE

Digital Solutions Engineer & Web Developer

Graduate Assistant, Dean's Office, Fordham University

Aug 2024 - Apr 2025
Hybrid, New York, USA

- Architected custom WordPress themes and plugins using PHP, JavaScript, and REST APIs, improving page **load times by 30%**, maintaining strict compliance with accessibility standards
- Engineered microservice-based integrations between WordPress, Google Analytics, and Mailchimp, **automating 40+ workflows** and **reducing administrative overhead by 40%**
- Implemented CI/CD pipeline with Git Actions to automate testing, building, and deployment of updates, ensuring **99.9% uptime**
- Collaborated with cross-functional teams using agile methodologies, participating in daily stand-ups and bi-weekly sprints to deliver on project deadlines

Endpoint Service Tech

IT-tech, Fordham University

Sept 2023 - Jul 2024
On-Site, New York, USA

- Resolved **500+ escalated technical incidents** via ServiceNow, ensuring optimal system functionality for **4,000+ devices** across the Fordham Campus
- Collaborated with cross-functional IT teams (JAMF, Ivanti, Microsoft Intune, Terranova) to deploy endpoint security solutions, mitigating cybersecurity threats and enhancing compliance
- Led restoration efforts for **3,200+ Windows devices** during the CrowdStrike Falcon outage, ensuring minimal downtime and operational continuity
- Managed device life-cycle operations, enforcing endpoint security best practices on **Windows & macOS** systems, improving performance and user experience for faculty and students

PROJECTS

iPins – Cloud-Based Event Planning Chat Platform

Full-Stack Development

Nov 2024 - Mar 2025
New York, USA

- Designed a Java microservice using Spring Boot and RESTful APIs, implementing geolocation calculations and event management functionality
- Practiced TDD with JUnit and Mockito, achieving 85% test coverage and reducing production bugs by 30%
- Established CI/CD pipelines with Git, following 12-factor application principles for automated builds, tests, and deployments.
- Deployed on Vercel (frontend) and Render (backend) for scalability and real-time functionality

Raven – MERN Social Web-application

Full-Stack Development

Aug 2024 - Oct 2024
New York, USA

- Built a MERN stack web application, implementing responsive UI with Material-UI
- Developed a secure JWT authentication system with Redux Persist for session management across browser sessions.
- Created RESTful API endpoints with Express.js for user profiles, posts, and social connections, with comprehensive error handling
- Incorporated file upload functionality using React Dropzone and Multer with AWS S3 integration for scalable media storage

Ink Analysis Using Fusion Of CNN-Based Transfer Learning

Undergrad Final Year Capstone Project

Oct 2022 - Jun 2023
Odisha, India

- Crafted a fusion model combining InceptionV3 and VGG19 convolutional neural networks for document forensic analysis
- Integrated transfer learning techniques to optimize model performance with limited training data, achieving 82.59% accuracy
- Formulated custom activation functions and layer configurations, improving performance by 7% over baseline models
- Received Dean's Council commendation for innovative and complex project execution

SKILLS

- Programming Languages:** Java (**Core Java, Spring Boot**), C/C++, Python, JavaScript, Swift, TypeScript, F#, C#, Ruby, Rust, R
- Databases & Data Management:** SQL (**PostgreSQL, MySQL, SQLite**), NoSQL (**MongoDB, Firebase, Redis**)
- Full-Stack Development:** React.js, Node.js, Express.js, Redux Toolkit, **WebSockets, Firebase, REST APIs**, Bootstrap, JWT, **Microservices, Docker**, Supabase, Leaflet.js, Formik, Yup
- Data Science and Machine Learning:** TensorFlow, Pandas, Matplotlib, MLOps
- State Management and UI Optimization:** Redux Persist, React Router, React Dropzone
- Cybersecurity & IT Infrastructure:** ServiceNow, Microsoft Intune & Autopilot, JAMF, Endpoint Security, GitHub Copilot
- Certifications:** Google Cloud-Ready Fundamentals, Google Technical Support Fundamentals
- Relevant Coursework:** Data Structures & Algorithms, Machine Learning, NoSQL Database Systems, Database Management, Networking, Software Engineering, Object-Oriented Design, Web Development
